We are simple folks who believe in the simple pleasures in life...like a quality fragrance. Hat Creek Candle was born in Watertown, Wisconsin in 1999 when we set out to create a candle that would burn clean, leave no wasted wax, and fill the home with quality fragrance. We accomplished this goal and are proud to offer the highest quality candle available. We continue to pour, clean, finish and pack our products entirely by hand because we believe in the quality and personal attention that only comes from the human touch.

Hat Creek candles are made by people, not machines.

From the bottom of our hearts and on behalf of the organization which selected us, we thank you for your order. The simple pleasures of helping others and enjoying a quality fragrance are yours. Enjoy the scents and the memories that they bring...
